The Location

Immerse yourself in nature and adopt a new stylish way of living within this leafy and desirable suburb. Just 6 miles North West of Glasgow City Centre, the location couldn't be further away from busy city life, with its sense of relaxation and calm.

Steeped in history and culture, Bearsden is welcoming of those at any stage in life and has an abundance of amenities nearby. A thriving local community, there is a diverse mix of independent shops, bars and restaurants to explore, regularly enjoyed by locals.

Meanwhile those who favour the great outdoors can take advantage of the vast array of nature walks and reserves close by – including Mugdock Country Park and Kilmardinny Loch.

It is this slower paced lifestyle and iconic setting which has attracted artists and authors, such as Julia Donaldson, to Bearsden. And the benefits of living in such an environment are clear to see, with some of Scotland's highest-ranking schools within the local catchment.

Your new home will allow you to settle into an entirely different mindset and better quality of life as you put your mental wellbeing first.
